

CS-DL-IC-CPU-R200-GR

Proximity Card (4 pcs)

Introduction

EZVIZ proximity card supports EZVIZ encryption algorithm, protects internal data and chip authentication, and can prevent card copying effectively. Support EZVIZ product card swiping ability, effectively identify and verify identity. Safe, convenient and reliable.

Main Features

EZVIZ Encryption Algorithm

Sensitive Recognition

Anti-copying

Lightweight

Applicable to EZVIZ Smart Lock & Video Doorphone

Dimension

Specifications

Model	CS-DL-IC-CPU-R200-G
Technical parameter	
Encryption Algorithm	Support
Operating Frequency	13.8-14.4 MHz
Communication Speed	106kbps
Erase Endurance	10W times
Data Retention Time	10 year
Operating Temperature	-10°C~50°C
Storage Temperature	-25°C~65°C
Materials	
Material	ABS
Size	40mm*32mm*3.7mm
Color	Extreme Grey
