

# The affordable way to install or replace T8 LEDtubes

## CorePro LEDtube EM/Mains T8

Philips CorePro LEDtubes are the quick and easy way to replace T8 fluorescent or other LED tubes with a fast pack back time. Not only does the Core range of LEDtubes require a low initial investment, but LED energy efficiency also delivers instant savings that you can bank on over a long and reliable lifetime. Plus, with the same lamp size and light distribution as fluorescent alternatives, you'll never know the difference. There are two ways to install these LED tubes: Rewire your existing fluorescent-based luminaires so the CorePro LEDtubes work directly on the Mains. Or simply change the fluorescent starter to an LED starter that can be used with your Electromagnetic ballasts.

### Benefits

- Optimized energy savings – about 50% more than fluorescent alternatives
- Easy Installation – retrofit or rewire
- Same look and feel as fluorescent lamps
- Minimize maintenance costs – Last twice as long as fluorescent tubes to reduce replacement costs

### Features

- Choice of colors: 4000K and 6500K
- The right fit – 600mm/1200 or 1500mm
- Longer lifetime – Lasts twice as longer as fluorescent lamps
- Wide range of applications

# CorePro LEDtube EM/Mains T8

## Application

- Offices
- Banks
- Education
- Food and Large Retailers
- Light Commercial

## Warnings and Safety

- NOTE: The overall energy efficiency and light distribution of any installation that uses these lamps will be determined by the design of the installation.
- Installation must be done according to the installation diagrams provided with the lamp or available online. Installation must be done by a certified professional.
